ABOUT

I am a software developer who has recently made the transition to tech, after playing professional football for the last seven years. I'm a self-motivated, team oriented, algorithmic thinker with a passion for learning and a strength for working in a high pressure, fast-paced, environment. I'm accustomed to comprehending a variety of new concepts in a short period of time and seeking a position to expand and leverage my strengths.

MY SKILLS

HTML | CSS | Javascript | React |
Git/GitHub | Python | Django | SQL

PROJECTS

Travel Buddy - Client-Side Capstone

- A travel app that allows users to plan trips, create itineraries, add activities, and share reviews of activities with other users
- Created a responsive UI by using Mantine UI and Flexbox CSS
- Built Single Page web application with full CRUD functionality using JavaScript and React
- [VIEW PROJECT](#)

Job Seeker - Full Stack Capstone

- A job search tracking app that allows users to create boards to organize jobs in their job search, score jobs based on user priorities, prepare for Interviews, and manage their network of contacts.
- Created a responsive UI by using Tailwind CSS and daisyUI (tailwind library).
- Built Single Page web application with full CRUD functionality using JavaScript, React, Python, and Django
- [VIEW PROJECT](#)

EDUCATION

Nashville Software School

Full-Stack Web Development Bootcamp

University of Central Arkansas

MBA - Healthcare Administration

Bachelor of Science - Health Services Administration

TECHNICAL EXPERIENCE

Software Development Apprenticeship July 2022 - Jan. 2023 Nashville Software School

NSS is a six-month intensive, full-time software development bootcamp focusing on HTML, CSS, Javascript, React and server-side fundamentals with Python and Django.

- Utilized version control using Git/Github to manage source code
- Created entity relationship diagrams (ERD) to define relationships for database planning
- Constructed single page applications with HTML5, CSS3, JavaScript, React, Python, and Django.
- Collaborated remotely in group projects to build applications
- Applied Agile scrum methodology to our group projects by planning sprints, managing our backlog, and completing retrospectives
- Designed wireframes for web application development

WORK EXPERIENCE

Professional Athlete 2016 - 2022

National Football League • Canadian Football League

- Played for (NFL) Jacksonville Jaguars, Atlanta Falcons, Miami Dolphins, Buffalo Bills, Kansas City Chiefs, and (CFL) Saskatchewan Roughriders
- Adapted to a weekly evolving playbook and applied foundational concepts to new prepare for opponents
- Effectively communicated with coaches and teammates in high pressure situations
- Pursued and finished MBA while completing rehab for torn achilles in 2016
- Engaged in community service with the 5000 Role Models, Mentoring Tomorrow's Leaders, Paws4U, Wolfson's Children's Hospital, and Degraff Rehab Skilled Nursing Facility

Internship

Jan. - Apr. 2015

Heritage Living Center

- Participated in modified version of HLC's AIT (Administrator in Training) program, rotating between various departments including: Administration, Housekeeping, Dietary, Nursing, Billing, Maintenance and Medical Records
- Executed audits on medical assessment completion to determine employee efficiency
